# PFR1-825

### REAR TRAILING ARM FRONT BUSH

#### **INSTALLATION GUIDE**

### **Contents (parts per pack):**

2x Bushes 1x Grease

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a guide and in conjunction with workshop manual. It is recommended that:

- -all work to be carried out by a licensed technician;
- -all safety precautions adhered to;
- -wheel alignment to be checked and adjusted as required after any suspension work.

All fasteners must be tensioned to manufacturer's torque settings.

## **Fitting Instructions:**

- 1. Remove rear trailing arm and take out the original bush from the arm.
- 2. Clean any dirt or debris from the inside of arm bracket and deburr any sharp edges. Fig A.
- 3. Apply some of the supplied grease to the outside body of the bush.
- 4. Fit bush into the arm bore.

  Position bush on an angle and push through. Make sure to push the bush body and NOT the metal bracket.

  Fig B.
- 6. Refit the trailing arm to car and tension all hardware to manufacturers recommended torque settings.
